

Personalised Child Development & Provider Match Report

A practical view of strengths, development priorities and relevant support pathways.

Sample Child	Assessment Snapshot
Amina Wanjiku Age: 10 years Grade: 5 Assessment date: 12 September 2026	Overall Development Index: 78% Strength areas: 4 Developing areas: 3 Priority support areas: 1

How to read this report

This sample illustrates how VALYNK can translate a brief parent assessment into an easy-to-understand development profile, a prioritised support plan and provider matching. Scores are illustrative and should not be interpreted as medical, psychological or educational diagnoses.

Understand → Prioritise → Match → Connect → Track progress

1. Executive Summary

Amina presents a positive overall development profile with strong curiosity, learning attitude, social confidence and emerging self-belief. Her clearest opportunities are time management, emotional regulation under pressure and consistent study routines.

What is working well	What needs development	Recommended response
• Curiosity & learning potential • Positive social skills • Creativity • Learning attitude	• Time management • Emotional regulation • Study routines • Sustained focus	• Mindset & confidence coaching • Performance habits • Study skills • Progress reassessment

Development Area Scores

Cognitive Skills	85%
Emotional Regulation	70%
Social Skills	80%
Focus & Concentration	75%
Time Management	65%
Self-Confidence	78%
Learning Attitude	82%

2. Detailed Development Profile

Curiosity & Learning Potential Strength	Strong willingness to explore ideas and engage with learning.
Self-Confidence Developing Strength	Healthy self-belief overall, with room to strengthen confidence when tasks become difficult.
Focus & Concentration Developing	Can focus well when engaged; stronger routines may improve sustained attention.
Time Management Priority Growth Area	Planning, prioritising and completing tasks consistently is the clearest opportunity.
Emotional Regulation Developing	Would benefit from practical strategies for managing frustration, pressure and setbacks.
Social Skills Strength	Comfortable engaging with peers and participating in group settings.
Learning Attitude Strength	Positive orientation toward learning that can be channelled into consistent execution.

3. Personalised Recommendations

The pathway is modular: maintain demonstrated strengths, reinforce weak areas, develop partial competencies and prioritise critical gaps.

Priority 1 - Focus, Discipline & Performance Habits

Build planning, prioritisation, follow-through and distraction-management routines.

Priority 2 - Positive Mindset & Self-Belief

Strengthen constructive self-talk, resilience and confidence when facing difficult tasks.

Priority 3 - Emotional Regulation

Introduce practical techniques for recognising and managing strong emotions.

Maintain - Social Confidence & Learning Curiosity

Continue collaboration, creativity, communication and exploration opportunities.

Suggested 90-Day Development Sequence

Phase	Focus	Evidence to Track
Days 1-30	Baseline routines, confidence and goal clarity	Routine adherence, task completion, parent observations
Days 31-60	Focus, discipline and emotional regulation	Consistency, distraction management, recovery from setbacks
Days 61-90	Application and independent execution	Follow-through, confidence, self-management, school feedback

4. Provider Match Evidence

Provider matching is based on prioritised needs, programme relevance, age fit, delivery availability and predefined suitability criteria.

Sample Matched Provider	Match	Why it matches
Peak Performance International Nairobi, Kenya Physical & Online	96% Illustrative	Alignment with mindset, confidence, focus and performance-habit needs; relevant age group; suitable delivery options; active programme availability.

Relevant Active Programmes

Programme	Age / Format	Relevance	Upcoming Intake
Performance Accelerator Program (PAP)	11-14 • Physical/Online	Mindset, focus, confidence, habits	9th - 13 Nov 2026
Genius Activator Program (GAP)	5-10 • Physical	Creativity, focus, learning potential	9th - 10 Nov 2026
PEAK Club (Termly)	School-based	Sustained mindset & life skills	Termly

Parent Decision Guide

Before booking, review the provider profile, programme outcomes, dates, venue or online format, fees, safeguarding information and terms. A high match score indicates alignment with the assessment criteria; it does not guarantee a particular outcome.

5. Progress & Reassessment Plan

After support begins, VALYNK can track evidence of progress and update recommendations as the child develops.

Measure	Baseline	Direction	Suggested Review
Focus & Concentration	75%	Improve consistency	30-45 days
Time Management	65%	Priority improvement	30 days
Self-Confidence	78%	Strengthen under challenge	45-60 days
Emotional Regulation	70%	Improve recovery under pressure	45-60 days
Learning Attitude	82%	Maintain / strengthen	90 days

Next Steps

1	Review	Confirm the parent observations and priority needs.
2	Compare	Review matched providers, relevant programmes and upcoming intakes.
3	Connect	Select a provider and programme; request connection or book an intake.
4	Track	Record participation and reassess priority areas after the agreed period.

Important: This is a sample product/UI report. It is not a diagnosis, clinical evaluation, school report, or guarantee of programme outcomes. Any real assessment framework should be validated for its intended use and age group.
